

SHE'LL WED A COUNT.

Miss Carola Livingston to Be the
Bride of a French Nobleman.

SOCIETY ATTENDS FOUR SWELL FALL
WEDDINGS.

A SAVIN AND ORANGE-BLOSSOM DAY.

Not for a long time has there been such a ripple of excitement in society as that occasioned by the most announced engagement of Miss Carola Livingston, daughter of Mr. Johnston Livingston, and Count Villeneuve, of France. Both Miss Livingston and her prospective husband are Catholics, and the wedding, which will be the smartest and most representative of the year, is to take place at the Cathedral Saturday, Dec. 21. The ceremony will be performed by Archbishop Corrigan, aided by Father Van Rensselaer and a number of other priests. Miss Carola Livingston is too widely known to require description, but it may be noted that she is not familiar with her personal characteristics to hear that she is of medium height, of the brunette type, and is not pretty. She is, however, very interesting, and well liked because of her very gracious manners.

Count Villeneuve is a rich man, a blond, of medium height, and speaks but little English. He is most polished and a brilliant conversationalist. By occupation he is a government official.

This is the first announcement of the engagement of the couple, excepting to the immediate relatives, to whom it is extremely satisfactory.

Trouble Here of a Honduras Firm.
The Sheriff has received two attachments against the Honduras Planting and Trading Company, of Honduras, one for \$1,000 in favor of Joseph R. Merrihue, and the other for \$25,000 in favor of J. J. Sherman, as receiver of T. W. Barr & Co. The Sheriff levied on a small balance in a bank.

THE WEAKEST SPOT
in your whole system, perhaps, is the liver. If that doesn't do its work of purifying the blood, more trouble comes from it than from disturbance of any other organ. Dr. Pierce's Golden Medical Discovery acts upon this weak spot as nothing else can. It causes it up to healthy, natural action. By thoroughly purifying the blood, it reaches, builds up, and invigorates every part of the system. For all diseases that depend on the liver or the blood—Dyspepsia, Indigestion, Biliousness, every form of Scrofula, even Consumption (or Lung-crofula) in its earlier stages; and also most stubborn Skin and Scalp Diseases, the "Discovery" is the only remedy so unfailing and effective that it can be guaranteed. If it doesn't benefit or cure, you have your money back. On these terms, it's an insult to intelligence to have something else offered as "just as good."

Stern Bros.

Thursday, Oct. 12th,

will place on sale a collection of

Children's Walking Coats

of Imported Materials,

Handsomely trimmed,

1 to 4 year sizes, at

Real value \$6.50 to \$9.75.

West 23d St.

A WILD CAT IN THE CAR.

It is Supposed to Have Come from Ohio with the Hay.

(Special to The World.)

PASSAIC, Oct. 11.—It took Charles A. Crane, the school Commissioner, his partner, L. J. Van Winkle, and a dozen friends and employees, all armed with guns, clubs and stones, to load a car of hay on the Delaware and Lackawanna Railroad freight switch this morning. They expected to find something inside, not a wild cat, but a wild cat.

The car was opened all prepared to "let fly" at the animal, but it refused to appear. Then they laid siege to the car. Stones were thrown in the hope of scaring the beast, but it refused to budge. R. H. Bowker, armed with a revolver, at last climbed into the car and crawled over the sides of hay until he saw the wild cat and shot it. The animal weighed thirty pounds.

Mr. Crane is the buying member of the hay and feed firm of Crane & Van Winkle. He went to Patterson yesterday to buy hay, and while testing a car looked up and saw a big cat lying on top of one of the bales. He jumped out instantly and yelled the word, saying he would take that cat. When the car arrived in Passaic he was ready to give it a reception. The car was loaded in Ohio, and must have received its passenger there.

Contract fatigue and weather with Mr. Crane's cat, a reliable tonic. 183 B'way.

State Medical Association Convention.
